ITB #27-04 LARGE DIAMETER FIRE HOSE

ADDENDUM #1

POSTED 11/5/2026

1. Does the 5% bid bond requirement and the 100% performance and payment bond requirement apply to this equipment-only purchase? We noticed references to construction costs and guaranteed maximum price agreements in those sections. **No bonds will need to be submitted for this project.**

2. Are all listed insurance requirements applicable to a supplier that arranges direct delivery from the manufacturer without performing installation? **If you are shipping for delivery and not on-site, the insurance is not required.**

3. May a distributor submit manufacturer references and qualifications to demonstrate relevant product delivery experience? **Yes the product information and warranty will fulfill this requirement.**

4. We also noticed that the introduction references a Quick Attack Fire Apparatus, while the scope specifies large diameter fire hose. Please confirm that the hose specifications govern this solicitation. **The introduction is incorrect. This bid is strictly for the Fire Hoses as described in the Scope of Work.**

5. Finally, could you confirm the anticipated payment terms following delivery and acceptance, as well as the first addendum posting date? The county webpage and bid package appear to list different dates. **The correct dates are as follows: Question deadline – December 3rd, Addendum deadline – December 7th and bid deadline is December 15th at 3:00pm.**
